**Country Guides:** The Guides will help you employ a more culturally relativistic approach when working with foreign-born individuals.

In this DVD, Dr. Caralee Caplan-Shaw and her patients will clarify the risks of untreated latent TB infection and motivate your patients to complete treatment.

**TB Highlight of the Month**

This month's highlight is the TB Contact Investigation Interviewing Skills Course. The course was developed by the CDC Division of Tuberculosis Elimination (DTBE) and the TB Regional Training and Medical Consultation Centers. This course is designed as an interactive, skill-building training to improve the abilities of both new and experienced staff who are responsible for conducting TB contact investigation interviews. The course materials include a facilitator guide, slide sets, and exercises.

## Final Thought . . .

To keep the body in good health is a duty . . .  
otherwise we shall not be able to keep our mind strong  
and clear.

- Buddha
